Ambitious, dedicated and growth oriented computer science engineering student seeking for an opportunity to leverage my skills, while making significant contribution to growth of organization.

EDUCATION:

[2020 - Present] B.Tech CSE with specialization in Internet of Things

CGPA: 8.23 | Vellore Institute of Technology, Vellore, Tamil Nadu.

[2019 – 2020] Higher Secondary Certification

Percentage: 88.92 | Yashwantrao Mohite College, Pune, Maharashtra.

[2017 – 2018] Secondary School Certification

Percentage: 89.00 | Baliraja Vidyalaya Kerwadi, Parbhani Maharashtra

PERSONAL PROJECTS:

▫ Bird/Animal Repellent

The object of the project is to create a system that effectively deters birds and animals from specific areas, such as agricultural field or building using humane and non-lethal methods. Here I have used deterrents ultrasonic sounds and flashing lights.

▫ WorkShake: Worker Employability Platform

The platform facilitate and enhance the employability of daily wage workers by providing a comprehensive and user-friendly platform that connects workers, employers and training providers.

▫ Food Delivery App using MERN Stack

This web app includes ordering, add to cart, change the delivery functionalities.

WORK EXPERIENCE:

▫ Flixdin [7/2023 – present] UI/UX Intern

I have worked on designing engaging and user friendly User Interface for flixdin using Figma. I contributed in designing the web app interface. During the internship I could collaborate with other team members and learn how to build a strong user interface.

▫ Accenture Nordics Consultant virtual experience program participant with Forage

During this program I have added skills like how to define the project priorities, assemble plans, user journey redesign based on the data from various sources, outcome analysis for client communication, prioritization of tasks based on the impact assessment and client needs.

▫ Cognizant Agile Methodology virtual experience program participant with Forage

In the program, I excelled in Scrum Agile crafting user stories, and delegating tasks efficiently based on roles. A deep understanding of key roles like Scrum Master, Product Owner, and developers facilitated to learn communication and decision-making processes. Understanding essential Scrum ceremonies, namely Sprint Planning, Review, Daily Standup, and Retrospective, I used during given tasks.

TECHNICAL SKILLS & TOOLS

- JAVA Programming
- C Programming
- MERN STACK
- HTML
- CSS
- SQL - MYSQL - Mongo DB
- Git version control
- VS Code
- Figma Software
- MS SharePoint

INDUSTRY KNOWLEDGE

- SCRUM Agile Framework
- MS SharePoint
- Timeline Management
- Consultancy
- Agile Software Development
- Project Management

INTERPERSONAL SKILLS

- Problem Analysis
- Collaboration
- Detail Oriented
- Empathy
- Conflict Management

LANGUAGES

- Marathi
- Hindi
- English

CERTIFICATES

- Wells Fargo Software Engineering Virtual Experience Program
- Cisco Introduction to Internet of Things
- Accenture Project Management Virtual Experience
- AWS solution Architecture Virtual Experience

INTERESTS AND EXTRACURRICULAR

- BLOG WRITING
- CYECLING
- Social work
- grundstufe deutsch
